INTRODUCING A FINE ASSORTMENT OF

## TRITOMA'S

(ORIENTAL TORCHLILIES)

EASY TO GROW!!!

TRITOMA'S ARE THE IDEAL CUT FLOWERS TO USE AS A FILLER FOR POINTING UP THE BACKGROUND COLOR IN BOUQUETS, OR FOR BLENDING WITH ASSORTED COLORS.

THESE TALL STATELY SPIKES MAY ALSO BE USED ALONE, AS THEY HAVE A TENDENCY TO CHANGE THEIR SHAPE AS THE DAYS PROGRESS AND ARE MOST INTERESTING TO WATCH, THEY ALSO MAKE A WONDERFUL CONVERSATION PIECE.

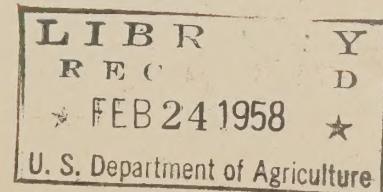

AN ASSORTMENT OF THESE PLANTS IN PERENNIAL BORDER BLOOMS CONTINUOUSLY FROM THE MIDDLE OF JUNE TILL LATE IN OCTOBER. THEIR EFFECT IS MOST STRIKING AND THEY ARE A BOON TO GARDENERS, BECAUSE OF THE LITTLE CARE NEEDED IN GROWING. THEIR BRILLIANT SPLASH OF COLORS AND THEIR CONTINUOUS BLOOMING HABITS WILL BRIGHTEN UP THE DULL AREAS IN THE GARDEN.

BY SCATTERING THEM THROUGHOUT THE GARDEN ONE MAY ACHIEVE A GARDEN WITH "THE ORIENTAL LOOK."

PLANT TRITOMA'S ONE FOOT APART WITH THE TOP OF THE CROWN TWO INCHES BELOW THE SURFACE, GENERALLY THEY ARE HARDY. IN NORTHERN AREAS, WITH HEAVY FROST PROTECT WITH MULCH.

PLANTING TIME: EARLY SPRING—THROUGH JUNE 1st. THEY ALSO CAN BE PLANTED AFTER SEPT. 15th, UNTIL FROST. YOU DON'T HAVE TO DIG UP TRITOMA'S, LEAVE THEM IN THE GROUND; THEY WILL PRODUCE MORE FINE FLOWERS FOR CUTTING AND GARDEN BEAUTY EACH YEAR.

THE FIRST YEAR OUR STRONG PLANTS WILL PRODUCE TWO TO THREE FLOWERS. THE NEXT YEAR YOU MAY EXPECT A HALF DOZEN SPIKES PER PLANT. THE THIRD YEAR AS MANY AS SEVENTEEN SPIKES; HAVE BEEN COUNTED FROM ONE PLANT.

PRICES: TRITOMA

OUR

## NEW HYBRIDS
